

THE LEARNING STEP PRE-SCHOOL

Our primary goal is to provide your child with a stimulating environment in which they can grow. This program will give your child a variety of experiences, which will promote *social, emotional, intellectual* and *motor skills*. We strive to give each child a positive feeling of self-worth.

We believe in and value each child's uniqueness. The classroom and the many planned activities are designed to provide an atmosphere where each child can freely express themselves. The children are encouraged to *communicate, explore, discover* and *learn* through creative play!
