2. To accept the responsibility for providing adequate and attractive park areas and wholesome leisure opportunities for all people of the Park District within the limitations of the money provided through collection of taxes, gifts and funds from other sources.
3. To make the best possible use of all physical facilities under the direction of the Board as well as those made available to it by other agencies in the District.
4. To cooperate with all other groups, including schools, churches, and other public and private agencies, and with state and national groups, to offer leadership in coordinating and correlating all those activities and services to obtain maximum benefit to the citizens of the Park District.
5. Park and recreation lands should be acquired even if the limited financial resources of the park and recreation agency oblige it to delay complete development.
